

# Basic Element, Shades (ft. Max C & Taz)

I'm looking good!  
I'm looking fly!  
I'm walking alone and i never felt so high.  
Check out my swagg.  
Yo peep my style.  
And when i hit the club, i'm gonna get wild tonight.  
Yeeaeeah, oooh, yeeeah.  
Tonight, tonight, oohyeeeah!

Tonight i put my shades on!  
I got that magic touch of fame.  
Tonight's my time to roll on.  
And by the end you all will know my name

Please dont pick me up,  
when you see me on the dancefloor raving and i am all liquored up, fill cup we all just live it up,  
put up, were never gonna get enough  
Chicks they love it, we kill them with the melody  
In motion move with the energy  
In ibiza chilling on the boat,  
with all the pretty women in my scope  
Thats when i told Tiffany  
I'm spending euros now so its Paris or italy,  
I been doing this way back when westend so i pass big ben,  
in the drop with my hands on her legs,  
I cant wait till were back on the ends  
It was the same way now and the same way then,  
Now i'm a boss i can do it all again

Tonight i put my shades on!  
I got that magic touch of fame  
Tonight's my time to roll on  
And by the end you all will know my name

You hear me saying: No no no no no no

I got that magic touch of fame.

You hear me screaming: No no no no no

And by the end you all will know my name

Please dont pick me up,  
when you see me on the dancefloor raving and i am all liquored up, fill cup we all just live it up,  
put up, were never gonna get enough  
Chicks they love it, we kill them with the melody  
In motion move with the energy  
In ibiza chilling on the boat,  
with all the pretty women in my scope

Tonight i put my shades on!  
I got that magic touch of fame  
Tonight's my time to roll on  
And by the end you all will know my name
