Bastiaan Ragas, If Only

If Only

If only you could hear me now
Singing this song
But all alone, just for you
If only there would be a way
For me to show you what I want
So hard for me to say
I would like to feel what its like to be with you
Take away this pain cause its tearing me in two

Chorus:
if only you would know
If only I could show
All of my time I spent on thinking of you
If only you could see
Just what you mean to me
All of my time I spent on thinking of you
If only you knew

If only our paths would cross
So you could see what Im about
What person I could be
If only there would be a chance
No one around, just you and me
To say these thoughts out loud
nd I would like to feel what its like to be with you
take away this pain cause its tearing me in two

if only I would
if only I could
if only our love would find its way yeah
if only you would know
if only I could show
cause all of my life
Ive been waiting for you
If only youd love me like I love you
