## Baumer, Denoument

Tell her now while she's still here
Tell her while you still feel brave
Don't even think about it
Don't try to figure it out
Your heart's a liar
But you should listen anyway
Tell her you love her
Your love can't be afraid

It doesn't have to be perfect like a movie scene Love is almost always accidental (x2)

And if you know she's gone You have to leave today You have to find a way to find her But just don't be afraid Of what you think she'll say You have to find a way to find her

It doesn't have to be perfect like a movie scene Love is almost always accidental (x6)
