

# Bayside, Ask For It

I've spent too much time  
Picking up pieces I've left behind  
For months you've been mine  
Still doesn't make it alright

I fell deaf to everything you said  
I didn't mean to but you ask for it  
I meant everything I said  
We're through now cause you bring me down

Don't be the one  
Waiting at my door next time I hear a knock  
It won't be the same  
The way it used to be so please leave me alone
