

Bazzi, Dreams

[Intro]

A place
Where space
And time
Doesn't exist
Just us

[Chorus]

I had a dream about you last night
Your eyes were shining so bright
Those lips and that bittersweet smile
I need this forever
Beautiful dream, yeah, yeah
Don't know what it means, yeah, yeah
All I know is I don't know
But I need this forever

[Verse 1]

Straight up out a dream
Like a magazine
Girl, it felt good with your body on me
We should never ever leave the sheets, yeah
We could stay forever underneath, yeah

[Bridge]

Oh, oh, oh
It's like déjà vu when my hands up on you, like
Oh, oh, oh
I might be naive, but you're more than a dream, yeah
Oh, oh, oh
You made me feel alive, got me two times five, but
Oh, oh, oh
Dreamin' all about you

[Verse 2]

You give me feelings that I can't explain to you
Girl, I was cold for a while, now I'm something new
Tell me what you want, anything at all, I got it though
Swear to God we unstoppable, yeah

[Chorus]

I had a dream about you last night
Your eyes were shining so bright
Those lips and that bittersweet smile
I need this forever
Beautiful dream, yeah, yeah
Don't know what it means, yeah, yeah
All I know is I don't know
But I need this forever

[Outro]

Oh, oh, oh
You give me feelings that I can't explain to you
Oh, oh, oh
Girl, I was cold for a while, now I'm something new
Oh, oh, oh
Tell me what you want, anything at all, I got it though
Swear to God we unstoppable, yeah
