

# Be Your Own Pet, Wildcat

You know I love you like the sludge from my cow house city

Oh I love you like the sludge from my cow house city

I am wildcat

You are a worm

And we are chasing each other and taking turns

We aren't giving up, we aren't safe

And we are chasing each other all over the place

You know I love you like the sludge from my cow house city

Oh I love you like the sludge from my cow house city

I am wildcat

You are a worm

And we are chasing each other and taking turns

We aren't giving up, we aren't safe

And we are chasing each other all over the place
