Beach Boys, Your Summer Dream

Beach Boys
Surfer Girl
Your Summer Dream
Drive your car down to the sea
All the while you build a scheme
Take her hand and walk on with her
Make it real your summer dream

Smell the warm and salty air See a wave reflect a beam Stop and find a pretty shell for her Make it real your summer dream

See another couple over there To them an ordinary day Soon you wonder the time has gone The sun has almost slipped away

Now it's gone and your alone In her eyes you see a gleam Time has come for you to show your love Make it real your summer dream

Make it real your summer dream Make it real your summer dream
