

Beat Happening, Honey Pot

Honey pot
I love you a lot
Honey pot
You say you're not

You got five other guys saying love me do
You know what they want from you
Me, all I ask is love
And honey pot, my love you can trust

Honey pot
I love you a lot
Honey pot
You say you're not

But when you're alone and feeling bad
I'm the one who'll always have
A place for you to turn to in trouble
And honey pot I'll always love you

Honey pot
I love you a lot
Honey pot
You say you're not

Oh honey pot I can tell by your eyes
You're as wild as I am shy
So take me by the hand and lead into that land
Where everything is honey and sweet and sugar pie

Honey pot
I love you a lot
Honey pot
Please say you will
Please say you will
Please say you will
Oh honey pot
