What  
[ JuJu ]  
Come on

[ VERSE 1: Psycho Les ]  
I don't trust thugs, I bust slugs  
I need a gangsta bitch that loves rough love  
That drinks alcohol and blows up drugs  
I'm stompin you out, leavin you in scuffed Lugz  
What the fuck is y'all cryin about?  
Bottles at the bar, I'm buyin em out  
Hookers on the dancefloor, I'm tryin em out  
Doin things in the club you should only try in the house  
(Watch out now) I never have to line up  
Or even pay admission to go in a night club  
I'm Lester and must be calm, never hyped up  
VIP drinkin Henny like what (what) (what) (what)  
Ain't no stoppin these  
Muthafuckin Nuts that be choppin beats  
Blow a million bucks on a shoppin spree  
Y'all bitches better duck when I cock and squeeze  
Plow!

[ CHORUS: JuJu (2X) ]  
Cause we can do it  
However you want  
Flip flows or pop those, kid  
Whenever you want  
Beats, beef, or both, son  
However you want  
Psych and Ju bring the joint, kid  
Whenever you want

[ VERSE 2: JuJu ]  
Yo, you better duck when you see me comin  
Better run to your drug when you see me comin  
No time for horse play, my force spray right at your neck  
Respect when the boss say I'm a threat  
No games, I'm business, get it correct  
You know I bought a lot of guns since "Reign of the Tec"  
Regardless, my only concern is progress  
Leavin all y'all monkey-ass producers jobless  
I'm hungry, man, maybe like never before  
Bigger and better shows every tour  
More money, more hoes, I don't need no problem  
Some rap nigga get out of line, we gon' rob him  
Have a nigga terrified to be in the street  
Man, don't make me have to verify niggas is sweet  
Come on homie, I just want a piece of the pie  
Any man get in the way of that, he gon' die

[ CHORUS (3X) ]

(Intoxicated)

However you want  
Yeah, New York niggas  
Whenever you want  
(West Coast)  
Word, huh  
However you want  
All the burroughs, baby  
Whenever you want  
Get that paper  
However you want  
Beatnuts bring the joints  
Whenever you want  
Prepare  
However you want  
Whenever you want  
Huh?
