

Beatsteaks, Atomic Love

this is atomic love

just a minute ago
i was watching the show
now we're shaking the floor
making trouble for sure
and we're screaming "the cure";

this is atomic love

and she knows what the part is
kiss in a shot and get started
we're turning into an easy target
for something outrageous

i was just ready to know
already out of control
and i better get up for...
