

# Beatsteaks, My Revelation

who are the bands  
where are the bands  
who's able to make believe  
go with the gang  
hiding the slang  
spreading the old disease  
you look the same  
yeah you all look the same

my revelation

you've got the face baby  
i've got the taste  
the feeling is good and healthy  
i know you could attract me  
instead you attack me  
i'm trapped in a taxi

my revelation
