

# Beatsteaks, Sharp, Cool and Collected

I light the stars  
the city calls  
i guarantee my heart  
i get along  
i can't go wrong  
And now i am above it all  
cause when it comes to love  
i stay sharp, cool and collected  
if the whole world goes kaputt i can take it  
i get all i ever wanted  
stay sharp cool and collected  
i look for brains  
you got the skills  
your walk is mean  
you fit the bill  
i work like mad  
to shuck and jive  
no matter how you spin this thing
