

Bebe Rexha, Hard N Steady

Hard and steady, yeah

I'll be damned if you see me cry
These sunglasses on my eyes
That's for the zoom, every tear, every drop
Then when LA gonna dry
If you come to slow me down
Better know it's too late now
Gotta go, gotta try, gotta do
What's gonna help, it's coming live

Oh, where you going?
And do you know your way home, way home, way home?
I say, why you coming?
Cause I'll be gone on my own, my own, my own

I'm on my way, on my way, on my way, on my way
Are you ready, hard and steady?
It's your choice, make it quick, gotta know this is it
Are you with me, do you hear me?
You wanna taste it, come and taste it
It's yours to taste, so are you with it?
I'm on my way, on my way, on my way, on my way
Are you ready, hard and steady?
Hard and steady, hard and steady
Hard and steady, hard and steady
Hard and steady, hard and steady
Hard and steady, hard and steady

Gonna put the bricks tonight
Hold my fists up to the sky
Not afraid, gotta win everything
Cause baby, I was born to rise

If you come to slow me down
Better know it's too late now
Gotta go, gotta try, gotta do
What's gonna help, it's coming live

Oh, where you going?
And do you know your way home, way home, way home?
I say, why you coming?
Cause I'll be gone on my own, my own, my own

I'm on my way, on my way, on my way, on my way
Are you ready, hard and steady?
It's your choice, make it quick, gotta know this is it
Are you with me, do you hear me?
You wanna taste it, come and taste it
It's yours to taste, so are you with it?
I'm on my way, on my way, on my way, on my way
Are you ready, hard and steady?
Hard and steady, hard and steady
Hard and steady, hard and steady
Hard and steady, hard and steady
Hard and steady, hard and steady

Are you in? Are you out? Are you in? Are you
Are you in? Are you out? Are you in? Are you
Are you in? Are you out? Are you in? Are you
Are you in? Are you out?

I'm on my way, on my way, on my way, on my way
Are you ready, hard and steady?

It's your choice, make it quick, gotta know this is it
Are you with me, do you hear me?
You wanna taste it, come and taste it
It's yours to taste, so are you with it?
I'm on my way, on my way, on my way, on my way
Are you ready, hard and steady?
Hard and steady, hard and steady
Hard and steady, hard and steady
Hard and steady, hard and steady
Hard and steady, hard and steady
