

Bebe Rexha, Like That

[Verse]

Tell me baby why you do me like that

Tell me baby why you do me like that

Tell me baby why you do me like that, like that, like that, like, like that

Ooh, I never met somebody that way that I loved you, when I touch you

There's nobody one in the room but us two

I said tell me baby why you do me like that

Tell me baby why you do me like that

Tell me baby why you do me like that, like that, like that, like, like that

Tell me baby why you do me like that

Tell me baby why I want you so bad

Tell me baby why you do me like that, like that, like that, like, like that

Ooh, I never met somebody that way that I loved you, when I touch you

There's nobody one in the world but us two

[Outro]

Hummmmmm love

You like that, like that

Like that, like that
