

Bebe Rexha, When It Rains

I've been thinking
You were purple skies to me
I've been drinking
Love by the bottle lied to me
Now it's too damn hard when you're all what I want baby
No good but I'm needing your hands on me
I'm lifted
Clouds in my head
You're all I see

When it rains
I'm a tidal wave
On a midnight train to you
When it rains
You're like God to me
We found heaven in a hotel room
I just wanna
Go off in the backseat
You love making me scream
Let's fuck all the pain we've been through

When it rains
Only when it rains
I come right back to you

Had an impulse
Had a vision from the past
Going mental
Craving the feeling that we had
But now it's too damn hard when you're all what I want baby
No good but I'm needing your hands on me
I'm lifted
Clouds in my head
You're all I see

When it rains
I'm a tidal wave
On a midnight train to you
When it rains
You're like God to me
We found heaven in a hotel room
I just wanna
Go off in the backseat
You love making me scream
Let's fuck all the pain we've been through
When it rains
Only when it rains
I come right back to you
