

# Bebe Winans, How Do We

Often we live for tomorrow  
When all we really have is just today  
where did the joy turn into sorrow  
How did we let it all slip away  
I never ever meant to hurt you  
Even time can't undo what's been done

[Chorus:]

How do we mend a broken heart  
How do we find a place to start  
How can we learn to trust each other  
How do we wipe away the tears  
Just walk away from all these years  
Or can we put it back together?  
Asking down on bended knees how do we?

Seems like a hopeless situation  
if no one forgives no one wins  
beyond the pain is our salvation  
change of mind change of heart  
Change within  
I miss your touch and conversation  
I miss your simple smile when I awake  
um,um

[Chorus:]

How do we mend a broken heart  
How do we find a place to start  
How can we learn to trust each other  
How do we wipe away the tears  
Just walk away from all these years  
Or can we put it back together?  
Asking down on bended knees how do we?

[Bridge:]

How do we say good bye  
When goodbye is 0what I don't want to tell you  
How do we break down all these wall  
How can I leave when I still love you  
To be happy again would be worth it all

[Chorus]
