

# Bebel Gilberto, Simplesmente

Every moment I'm near you  
I try to understand  
Every second I try to believe  
In how I am

In the silence of moonlight  
I find myself and you  
Just as always I'm dreaming  
I know you're dreaming too

And all the tears that I've cried  
Are maybe drops of rain  
After all  
And every sunset sky  
Is here with us forever now

Quando canto me lembro  
De tudo o que bom  
& passing through a lot  
Eu sei o que dr  
(When I sing I remember  
Of everything that's good  
Just being through a lot  
I know what is pain)

No quero nunca esconder  
Talvez eu possa at me arrepender  
& porque ento pensei  
Que gente possa ser  
Bem mais que um simplesmente ser  
(I never want to hide  
Maybe I can even regret  
Just because then I thought  
That people can be  
Much more than a simple being)

Don't have to try too hard  
It's not a secret held after all  
'Cause every falling star  
Is here with us (forever)

No quero nunca perder  
Talvez eu pense at em querer  
& porque ento pensei  
Que gente possa ser  
Bem mais que um simplesmente  
(I never want to hide  
Maybe I can even regret  
Just because then I thought  
That people can be  
Much more than a simple being)
