

Bec Cartwright, A Matter Of Time

Yeah Yeah

mmmmmmm.....

Tick tock its a love bomb
One touch and its gonna go off now
Watch out when your so close
One kiss and its gonna get high
Something happens when your near me
One thing leads to another
I know where this is going
and we'll be lovers

Chorus

Its a matter of time, its a matter of faith
Its not a question of where or when or how close your gonna be mine
Its a matter of time, its an act of faith
It doesn't matter if its now or later, baby cause your gonna be mine
Its just a matter of time

Ohhhhhhhhhh Oh Yeh

mmmmmmm.....

Can't stop what we started
Lights down you got me going
Hearts race its a countdown, its chemistry body's in motion
We've been turning up the heat now, like a fuse slowly burning
Every second brings me closer, and we'll be lovers

Chorus

Its a matter of time, its a matter of faith
Its not a question of where or when or how close your gonna be mine
Its a matter of time, its an act of faith
It doesn't matter if its now or later, baby cause your gonna be mine
Its just a matter of time

Its getting warmer
Its getting better every moment, we are in deeper
Its gonna happen I just know it
Its getting stronger
We are getting closer every minute, every minute baby
Go in further further.....
Its gonna happen its just a matter of time

Tick tock its a love bomb
One touch and its gonna go off now
Watch out when your so close
One kiss, One kiss

Chorus x2

Its a matter of time, its a matter of faith
Its not a question of where or when or how close your gonna be mine
Its a matter of time, its an act of faith
It doesn't matter if its now or later, baby cause your gonna be mine
