You have some fat where?

Well, I have a tail attached to my spine and I want to thicken it up. I want it to be bigger.

Would that be the botox injection? Or would that be the fat grafting?

OK, hold on a second. I don't think you have the right person.

OK, no problem.

Thanks for holding. May I help you?

Hi, yeah. I had a tail put on about 4 years ago, attached to my spine and I've got some hair growing
