

Bed & Breakfast, There Is No Time

When you try to survive
Then you're stayin' alive
There's no time for asking why
Please keep on, don't you chill
Never stand still
Life is always eye for an eye
When you try to survive
Then you're stayin' alive
There's no time for looking back
Please keep on, don't you chill
Never stand still
The world is waiting
For your attack
Father told me to seize every day
Wake up son
Don't waste your time
Never give up just keep on and on
Ain't no mountain
that you can't climb
There's no time
For hangin' around
That is what they always preach
There are so many things
You can do
And no aim that you can't reach
There's no time to wonder
'Cause when wonder
This world keeps on turnin'
Turnin' around
It's like magic
When you try to survive
Then you're stayin' alive
In this world
