

Bed & Breakfast, When I Think Of You

When I think of you - my dear
All the problems start to disappear
When I think of you my love
My heart keeps missing a beat
No time to relax
No time to hold on
No time to see you
And hold you tight
I'm longing for you
When will I see you again
No distance will keep us apart
Listen to me
Still waters run deep - I swear
When you are not here
I'm missing you dear
I can't get you out of my mind
Sometimes they're alright
Sometimes they're all wrong
Sometimes I don't care
About at all
The things in my mind
All the love that I find
Is much more important
Than they are
Baby can't you see?
It's up to you and me they say
Will we hold on
And keep the feeling strong
I can't get you out of my mind
