Resoteric Fyah Keeper yeah you know how i roll,
music crawl into my soul and have me loosing control,
I don't worry about my troubles cause the music's in my ear,
I'll be rolling with the kick and I'll be poppin with the snare,
like yo reggae people come and listen what we say,
me and Kamil Bednarek have some music you should play,
it don't matter how you dance we can do it anyway,
you know we're feeling nice everyday.

Give me the music give me the rhythm,
give me the vibes give me the beat,
give me just little something so that i can move my feet,
I'll be flowing, showing love to everybody that i meet,
give me the vibes and I'm feeling complete Jah know.
