

Bee Gees, A Girl Needs To Love

Just before you break my heart,
I feel that there is something I must say
Before you go your way
Go on, have your fun and see if you can break
Their hearts like me , big man, you'll never understand

That a girl needs to love and be loved as i
Both your hearts should be in the sky
And you know that it's true (you know that it's true)
When it happens to you (when it happens to you)

Though I really care for you
I think it's only fair for you to try
Go ahead and say goodbye
Maybe one day when you fall , I think that i
Shall tell them all and so , oh maybe then you'll know

That a girl needs to love and be loved as i
Both your hearts should be in the sky
And you know that it's true (you know that it's true)
When it happens to you (when it happens to you)

(break)

Go on have your fun and see
If you can break their hearts like me
Big man, you'll never understand

That a girl needs to love and be loved as i
Both your hearts should be in the sky
And you know that it's true (you know that it's true)
When it happens to you (when it happens to you)
