Bee Gees, Back To The People

I wasn't very happy when you let me down
Still I've made my own decision
I'm gonna get back to the people , put my faith around
Back with the people , get up off the ground

Livin' life was easy when you were by my side
Now you're gone , it's too much effort
Now I'm gonna get back to the people , put my faith around
When you're back with the people , nothing brings you down

I'm gonna get back with the people , put my faith around

When you're back with the people , nothing brings you down

Using what I've learned and living what I preach
Makes the hard thing very easy
Now I'm gonna get back to the people , put my faith around
When you're back with the people ,nothing brings you down

I'm gonna get back to the people , put my faith around
When you're back with the people , nothing brings you down
I'm gonna get back to the people , put my faith around
When you're back with the people, nothing brings you down (fade)
