

# Bee Gees, Charade

Summer nights  
We made our love in the sand  
And at the dawn  
We held our love hand in hand  
And we listened  
To music the ocean was playing  
The words that our two hearts were saying  
That only two lovers can hear  
Let us ride on the wind  
While this moment is real  
You're the light of my life  
You are welcome to my charade  
And this feeling  
Knowing you blessed me forever  
And believing  
I have been touched by your love  
And the pleasure of knowing  
That evening won't tear us apart  
We can follow the sun  
Till the daylight is gone  
We can gaze at the sky  
Till the night is over  
Light of my life  
You are welcome to my charade  
And this feeling  
Of knowing you've blessed me forever  
We can follow the sun  
Till the daylight is gone  
We can gaze at the sky  
Till the night is over  
Light of my life  
You are welcome to my charade  
And this feeling  
Knowing you've blessed me forever  
We can follow the sun  
Till the daylight is gone  
We can gaze at the sky  
Till the night is over  
Light of my life  
You are welcome to my charade
