

Bee Gees, Could It Be I'm In Love With You

Look at me , I don't know what I'm doin'
Ever since I looked at you
How did I get this crazy feelin'
Could it be , I'm in love with you

Ever since I saw you in the moonlight
I've had this feeling through and through
Since that time , I haven't done a thing right
Could it be , I'm in love with you

Golly gee , I don't know where I'm goin'
I'm tryin' to make you see
Oh boy, I got to make her fall in love with me , oh

Night after night , I'm always dreamin'
Why don't you make those dreams come true

Can't you see how much I really love you
Why don't you learn to love me too

(break)

Golly gee , I don't know where I'm goin'
I'm tryin' to make you see
Oh boy, I got to make her fall in love with me

Night after night , I'm always dreamin'
Why don't you make those dreams come true
Can't you see how much I really love you
Why don't you learn to love me too
Love me too
Love me too
