

Bee Gees, Hold On (to My Love)

Bee Gees

Miscellaneous

Hold On (to My Love)

Today you came by to tell me you are leaving me

And to say that the love

And all that we knew had just drifted away

And I look in your eyes

And I couldn't bear the pain I felt inside of my heart

To think that I'm gonna be lonely again

And if ever you go then I know at a glance

I don't stand a chance

Hold on to my love I'm nothing

And I can't get along without you

You're the light of my life

And no living without your love

It's so hard to believe that you're going away

Couldn't make me feel so down

'cause I know that from this moment on I won't have you around

And if ever you go then I know at a glance

That won't stand a chance

Hold on to my love I'm nothing

And I can't get along without you

You're the light of my life

And no living without your love

Oh oh baby

Nobody's taking your place

But for you , but for me

Our love would live on for the whole world to see

So hold on to my love , I'm nothing

And I can't get along without you

You're the light of my life

And no living without your love

(repeat last verse 2 times and fade out)
