

# Bee Gees, How To Fall In Love (Part 1)

I got a bad sensation  
The enemy is all around  
The traces of my naked heart  
Are laid upon the ground  
I suffered side effects  
That might have been forever  
Even in my dreams  
And I was left alone to pray  
When there was no one in the way  
And nothin' what it seemed

And from a hard time, play time  
Took a trip around the world  
Made myself invisible  
The taste was in the wine  
And just when the thought of someone  
Needing me forever  
I don't believe the words are true  
That only she could be my savior

Experience is not enough  
I'll show you how to fall in love  
She said experience is not enough  
I'll show you how to fall in love

And she's all alone with me  
Every night  
And lighting all my days of sorrow  
On my own  
If there was any more to give  
You know I'd sacrifice it for her

And in the prime of my life  
I was blessed and I was sent  
Someone sweet and innocent  
And nervous when she kissed  
And in the face of my  
Forbidden fruit forever  
Miracles are mine  
And knowing I'm the first  
In her secret universe  
There's no sense of space and time

You take a small town, young girl  
Someone warm and wonderful  
That any man would understand  
That love is like the wind  
Something deep inside to give you  
And when the words get in the way  
The only thing you need is silence

Experience is not enough  
I'll show you how to fall in love  
She said experience is not enough  
I'll show you how to fall in love
