

Bee Gees, I Believe In Miracles

I don't believe in love
I'm not afraid of the night
People who follow their hearts survive

Don't need the chains of life
I am no refugee
They say that the eyes of the soul surrender

Give me little lovin' , can we set the world alight
Ev'ry thing I wanted walking right beside me ,baby
When I think I'm losin' , I just look at you and

Baby , I believe in miracles
Burnin' through the night
Shinin' with the power of lightning , so exciting
I'm on a journey , I don't know if I can make it on my own

Baby , I believe in miracles
Destination , your desire
And baby , oh sweet baby

I can't agree with war

It's not important to me
The stranger that stands in the wind survives

Give me little lovin' , can we set the world ali ght
Ev'ry thing I wanted walking right beside me baby
When I think i"m losin' , I just look at you and

Baby , I believe in miracles
Burnin' through the night
Shinin' with the power of lightning , so exciting
I'm on a journey , I don't know if I can make it on my own

Baby , I believe in miracles
Burnin' through the night
Shinin' with the power of lightning , so exciting
I'm on a journey , I don't now if I can make it on my own

Baby , I believe in miracles
Destination , your desire
Shinin' with the power of lightning , so exciting
I'm on a journey , I don't know if I can make it on my own
