

Bee Gees, I'm Satisfied

With you, baby I'm satisfied, making my love to you
'cause you got me hypnotized
And you came to me alone girl
I was a heart that's made of stone girl
And you broke it down in pieces
And you took me for your own girl
I lie beneath your ecstasy
You can pour it all over me
I won't break the chains of loving you
We got ev'rything, anybody needs
And it's here with me, with you
Baby I'm satisfied, makin' my love to you
(makin' my love, makin' my love)
'cause you got me hypnotized
Before you took me by the hand girl
I was a statue in the sand girl
I was broken down for reasons
You could never understand girl
I was living on desire
But that was just the way we were
Till you make a world of love in you
We got ev'rything, anybody needs
And it's here with me, with you
Baby I'm satisfied, making my love to you
'cause you got me hypnotized
Anytime you wander, get yourself back to me girl
Any cloud you're under, you got to get yourself free girl
Ahh, ahh, baby with you
Baby I'm satisfied, making' my love to you
'cause you got me hypnotized, oh baby, with you

(repeat last 2 lines and fade out)
