

Bee Gees, I want home

Take off your dress , put on a new one
I'm going to take you out tonight
Put on a dress , make it blue one
Ev'rything's gonna be all right
I want home again
I want home again
So I can be with you , with you
I want home again
To do the things you do , you do , yeah
Take off your dress , put on a new one
I'm going to take you out tonight
Put on a dress, make it a blue one
Ev'rything's gonna be all right
(break)
I want home
I want home again
So I can be with you, with you
I want home again
To do the things you do , you do yeah
Take off your dress, put on a new one
I'm going to take you out tonight
Put on a dress, make it a blue one
Ev'rything's gonna be all right
I want home
I want home again
So I can be with you .. etc (fadeout)
