

Bee Gees, In Your World

In your world , they say the nights are gay
Your troubles fly away
With this little girl

We are one , yeah ,yeah, yeah
You are the one for me
Together we will be
With you in your world

My life ,we'll build a paradise
With sugar and all things nice
We'll let the whole world know
I really love you so

In your world ,you are the one for me

Together we will be ,with you in your world

(break)

My life we'll build a paradise
With sugar and all things nice
We'll let the whole world know
I really love you so

In your world , yeah, yeah, yeah
You are the one for me
Together we will be ,with you in your world

In your world ,yeah , yeah, yeah
In your world ,yeah , yeah, yeah (fade)
