

Bee Gees, Lemons Never Do Forget

Incident'ly there should some changes made.
You've got to work if you should have to save.
An apple is a fool but lemons never do forget.
You've got to play it cool before they come and throw the net.

Wait a while and straighten out the tie you wear.
You've got to take it easy if you dare.
An apple is a fool but lemons never do forget.
You've got to play it cool before they come and throw the net.

Don't be blind you've got a thinking mind.
Stop the bells that ring so loud.
Don't nod your head you'll draw a crowd.
Just think of ev'rything you've worked so hard to bring.
The lemon sings my song; He's known it all along.
