Ev'rything I want I got , and I got you girl
You really fool me , baby, to my little world
I love you like nobody else
I love you like nobody else
I love you like nobody else

Put yourself in my place
Do you love me too
Take a look at my face
The world I say is you
I love you and nobody else
I love you and nobody else
I love you and nobody else

Play you no games girl (play you no games girl)
I tell you no lies (I tell you no lies)
