Bee Gees  
Man In The Middle

You've got a plan that could never go wrong  
You took advantage and the damage done  
It all comes back to me baby  
It all comes back to me

I played the fool and I went off the track  
And when I think of all it cost  
When the die was cast  
You know I had to be crazy  
You know I had to be

I've been telling lies  
And you forgive me but my heart still cries  
And you can understand

I'm just the man in the middle  
Of a complicated plan  
No one to show me the signs  
I'm just a creature of habit  
In a complicated world  
Nowhere to run to  
Nowhere to hide

I know I let you down in so many ways  
I know that sorry doesn't tell you  
What you need me to say  
But, I would die for you baby  
Yes, I would die for you

I've been in disguise  
And you forgive me and our love will rise  
And you can understand

I'm just the man in the middle  
Of a complicated plan  
No one to show me the light

Ah, yes, I'm weary from battle  
But I've just begun to fight  
Nowhere to run to  
Nowhere to hide

I'm just the man in the middle  
Of a complicated plan  
No one to show me the signs  
I'm just a creature of habit  
In a complicated world  
Nowhere to run to  
Nowhere to hide

I'm just the man in the middle  
Of a complicated plan  
No one to show me the light  
Ah, yes, I'm weary from battle  
But I've just begun to fight  
Nowhere to run to  
Nowhere to hide

I'm just the man in the middle  
The only man

The fool of a man in the middle  
Nowhere to run to  
Nowhere to hide

I'm just the man  
The only man  
That stupid man  
Nowhere to run to  
Nowhere to hide
