

Bee Gees, Nothing Could Be Good

Baby, when there's only one embrace
one is just enough for two
When do I learn young fingers get burned
Never my love
Ha..

And when ev'ryone has been a friend
Windy day we never knew
Now nothing can stand the way it was planned
No, baby
Nothing could be good as
Nothing could be good as lovin' you

Even tho you're far away
You're movie plays in my mind
You're world is what you see
Let it be me
Mmmm...
And I can make you warm at night
But I need to be sure you got love enough to know
Ha...
Never, never

And when every cloud has lost it's glow
raining on my avenue
When do I hide that feeling inside
When baby
Nothing could be good as
Nothing could be good as lovin' you

Even tho your far way your movie plays in my mind
Your world is what you see
Let it be me
Mmmm...
And I can make you warm at night
But I need to be sure you got love enough to know
Ha...
Never, never

And when everyone has gone away
Sing to the Almighty if it's what you need to feel (do)
The world is real(true)
And baby, nothing could be good as
Nothing could be good as lovin' you

(repeat and fade)
As loving you
