

Bee Gees, Oh Teacher

Every season of my life
People say it , she go far
I exceeded what as needed
Do you wanna know what I came here for

Turn the lights way down
I will find you somewhere in the dark
I'm lying with you , you're lying with me
I want to show you what I know so far

By doing it right
I'm working on my design
I'm making love with a friend of mine
I wanna do it , I'll get you through it
There's nothing to it
You won't be leaving me with a star

Oh teacher , you get the test of my love
No matter what you learn
Oh teacher you got the best time , the last time
But this time you're gonna get burned
Oh teacher , you made me study all night
After the end of term
Oh teacher ,you've got the first time , the last time
But this time you're gonna get burned

Walk , think , act
As the book to you defines
Reach out for the one you love
It may be someone you left behind

You're the reason that I breathe
You're the savior of my nights
Did I leave you without a lover
But I never let you out of sight

You're gonna be mine
I've got a wider range
We keep the system but the rules may change
My lips are wetter , I do it better
And if you let me I can help you grow
Baby , don't say no

Oh teacher , you get the test of my love
No matter what you learn
Oh teacher , you've got the best time , the last time
But this time you're gonna get burned
Oh teacher , you made me study all night
After the end of term
Oh teacher , you've got the first time , the last time
But this time you're gonna get burned

Talk , move , smile
Do it right
We know the way
Watch out for the danger lies
In any game that you wanna play
In any game

Oh teacher , you get the test of my love
No matter what you learn
Oh teacher , you've got the best time , the last time

But this time you're gonna get burned
Oh teacher , you made me study all night
After the end of term
Oh teacher , you've got the first time , the last time
But this time you're gonna get burned

Oh teacher , etc (fade)
