

Bee Gees, One Road

One road to happiness
One road to loneliness
The devil's hand or the promised land
Which one will you choose

Life is a strange thing
It can make you happy or sad
There's two roads that you can take
The good one or the bad

One road to happiness
One road to loneliness
The devil's hand or the promised land
Which one will you choose

You may take the long road
Lots of people do
But you will find no peace of mind
Till Jesus comes to you

One road to happiness
One road to loneliness
The devil's hand or the promised land
Which one will you choose

If you take the bad road ,you will never see
The happiness that you would find through all eternity

One road to happiness
One road to loneliness
The devil's hand or the promised land
Which one will you choose

One road to happiness
One road to loneliness
The devil's hand or the promised land
Which one will you choose
