

# Bee Gees, The 1st Mistake I Made

I ain't got no claim to nothing  
I don't mess with anyone  
I walk my way living in a masquerade  
And one day I looked behind me  
At all the things I've done  
That's the 1st mistake I ever made  
I was born to a lonely woman  
in a town called Buffalo  
Never knew the man who never stayed  
With my 12-string on my back  
I discovered every track  
That's the 1st mistake I ever made  
With a million hearts I've broken  
I never kept the score  
Memories of good love hate to stay  
But I still remember someone  
Who loved me so much more  
That's the 1st mistake I ever made  
So, when nothing's worth the living  
And in the night I look above  
Prayed, about a million times I prayed  
I know my story ended  
When I lost my only love  
That's the 1st mistake I ever made  
I was born to a lonely woman  
In a town called Buffalo  
Never knew the man who never stayed  
With my 12-string on my back  
I discovered every track  
That's the 1st mistake I ever made
