

Bee Gees, The Love Of A Woman

When the day is done , and the night is near
Happiness is gone , when you're not here
And all the games and songs , they disappear
When the day is done

I believed in you , what you were to me
Ev'ry dream I knew , became reality
And all the worlds I knew , became a memory
'cause I believed in you

I gave you ev'ry thing love
Together we could bring love
I remember when I gave you
The love of a woman
The love of a woman

I believed in you , what you were to me
Ev'ry dream I knew , became reality
And all the worlds I knew , became a memory
'cause I believed in you

I gave you ev'ry thing love
Together we could bring love
I remember when I gave you
The love of a woman
The love of a woman
The love of a woman
The love of a woman
The love of a woman (fade)
