

# Bee Gees, This Is Your Life

Something that I hunger for  
Something you deny  
You say I'm bad for you  
And baby so do I  
Don't you know that all you gotta do  
You could be a lover  
And baby this is

This is your life  
Don't break it  
It's who you do it for  
It's the pain and pleasure  
This is your life  
Temptation  
A victim of the law  
We can talk about it  
Oh, oh, oh, oh, oh, oh, oh, oh, oh, oh  
This is your life  
This is your life

If you try to help someone  
You get the evil eye  
You say you suffocate  
Well baby so do I  
Don't you know that all you gotta do  
You could be a lover  
And baby this is

This is your life  
Don't hide it  
Don't try to mystify  
How soft the flesh is  
This is your life  
Get even, even if you die  
Don't run for cover  
Oh, oh, oh, oh, oh, oh, oh, oh, oh, oh  
This is your life  
Temptation  
That's who you do it for  
It's the pain and the pleasure  
This is your life  
Temptation  
A victim of the law  
We can talk about it  
Oh, oh, oh, oh, oh, oh, oh, oh, oh, oh  
This is your life

Define ourselves  
As something in space  
Not enough for everyone  
Everyone and as we speak  
The enemy is the mind  
I see the future coming for you  
All the lonely days and the lonely nights  
You've been searching for a love so right  
It's a tragedy just stayin' alive  
Stayin' alive  
And all that

Jive talking  
What you doing on your back  
Jive talking  
More rap less crap  
Times are bad, money is tight

Ain't too much heaven on  
A Saturday night  
Tell me now how deep is your love  
The heart is soft  
But the brain is tough

The enemy is the mind  
Don't let the future fall apart  
This is my world too, just run to me  
If you ever wanna mend that broken heart  
I have seen those nights on Broadway too  
Blaming it all  
What about you  
This is your life

This is your life  
Don't hide it  
Don't try to mystify  
How soft the flesh is  
This is your life  
It's who you do it for  
It's the pain and pleasure  
This is your life  
Temptation  
This is your life
