

# Bee Gees, Wildflower

Wildflower

Sacrifice everything in a wonderland that you know  
It's crazy that I'm clear out of my mind  
A wonderful place to be

Wildflower

Sweet as the morning light  
if I blink an eye will you go  
I'm starting to care much more than I dare  
A wonderful thing to see  
And what do we know

First say you love me

And then say you leave me

But we never say goodbye

God you're an angel

But even an angel must choose

Someone will hurt you and when you stop running

There's only this love of mine

Wildflower

Sacrifice everything in a wonderland that you know

If older is wise

One look in your eyes

I'm younger than I should be

And only time

Waiting for you

to grow

First say you love me and then say you'll leave me

But we never say goodbye

God you're an angel

But only an angel must choose

Someone will hurt you and when you stop running

There's only this love of mine
