

Bee Gees, Wing And A Prayer

Lovers in ancient times

Now it begins - I see it in your eyes
And I know how you feel - you long to touch the sky
The flame of life, let it eat your heart out every night
But you're not alone

This is your world - this is your world

Lovers in ancient time, caught in the fire
Only the strong survive - how can we face tomorrow
Live an illusion, don't let it fade and die
Something deep inside you, a wing and a prayer will guide you
Something deep inside you
Something deep inside you, a wing and a prayer will guide you
Something deep inside you

{Spoken}

Go now, girl, don't look back. This is your one big chance.
I place my fingers to your lips and I tell you my love flies with you
On a wing and a prayer, on a wing and a prayer

No muscle and bone - rhythm is the key
There's everything to play for - you're everything to me
The game of life - win it and your love comes tumbling down
You'll never be alone
This is your world - this is your world

This is your world - this is your world

Lovers in ancient time, caught in the fire
Only the strong survive - how can we face tomorrow
Live an illusion, don't let it fade and die
Something deep inside you, a wing and a prayer will guide you
Something deep inside you
Something deep inside you, a wing and a prayer will guide you
Something deep inside you

Something deep inside you, a wing and a prayer will guide you
Something deep inside you

Repeat to fade
