

# Bee Gees, You Do Your Loving With Me

1)

How can you say that we can't get along  
Baby, I've never ever done you wrong  
No matter what you might say  
I'm gonna have my own way

Chorus:

You do your lovin' with me  
Our kind of loving just has to be  
Our love must last our life through  
Don't you go leaving me blue  
What would I do

2)

Each time I see the one you used to love  
Is it my heart or her's your thinkin' of  
I want to be on your mind  
Leaving this big world behind

Repeat chorus

Ah.....

I want to be on your mind  
Leaving this big world behind

Repeat chorus
