What the dealio?
With the way you lookin' at me?
You know how it goes
Don't take a look
Just a little peek, come on
I see you over there
You're eyes are telling me something
But you gotta get in line with the rest
Show 'em that you're the best
And show me, so you got to push...

Repeat 1

2 - Slip and slide
Tell me now, tell me now
Would you lie, steal, beg, or plead?
Push, push and shove (and shove)
Push, push and shove (and shove)

(Sometimes)
You gotta sweat a bit for the one you want
(Sometimes)
You gotta show them what your made of
Confidence, intelligence, patience
And don't forget love no less
(Reasons)
Some are more important, obedience
With the patience and tenderness
You'll get a head above the rest
You're struggling, and you're losing strength
But you're so close
You've got to keep on...

Repeat 1

Repeat 2

[Lil' Shawn]
Uh, yo
Will you let me come find you?
I got a 500 SL
Baby, can I ride wit' you?
When I'm pushing and shoving you, holding you
I got a lot of love for you
I wanna see you every weekend
Cause I can give you what you need then
Lil' Shawn is the bomb on a bad day
Whenever you're close to me
That's the way that it's suppose to be

Cause it's your love that I'm needing
I'll take you out to eat then
We'll never stop speakin
Can you feel me girl?
If I had my way I'll give you the world
Whatever you need
You're feeling my Benz, I'll pull over throw you the keys
I'll get your nails and your feet done
Airbrush and a pedicure
But I hope that your ready girl
Taking long walks with my arms around you in the park
And I'm getting you home Before Dark
