

Behemoth, Ecclesia Diabolica Catholica

eritis sicut dii
thus sermonized the serpent ov eden
thus struck the breath ov the earth
and thus flooded the blood of the soul
sloither into the gaping void!

I worship thee, o vicious man!
now mark my words ye mortal race
feed my wrath with lion's gore
feed my envy with the fat ov lambs
as the wicked ways will flourish
behold the mounments ov god decay
lex divinus, I stamp the dust
I despoil the holy books
I descrrete the angelic verses
like dead leaves wither they to ash
as I am leading the host ov stars
onwards, embrace the sun
in absentia dei we sermonize
in ecclesia satan
thy might is right

I have watched the birth ov planets
I have witnessed the death ov worlds
I've conucted the choir ov star
I have ridden the tail ov the comet

from got to ash
from dust to man
in absentia dei we evangelize
in absentia Christi we spread like swarming plagues
in ecclesia Satan
thy might is right
