

# Beirut, Cherbourg

And a fall from you  
is a long way down  
I've found a better way out  
And a fall from you  
is a long way down  
I know a better way out

Well it's been a long time  
since I've seen you smile  
Gambled away my fright  
Till the morning lights shine  
x2

Sunday morning  
only fog on the limbs  
I called it again  
what do you know  
And I filled our days  
with cards and gin  
You're alright again, my dear

I will lead the way, oh, lead the way  
When I know  
And I'll sleep away, oh, sweep away  
What I don't  
Well sieze the way, oh, sieze the way  
No, I won't  
I will lead the way, oh, lead the day  
When I know
