

# Belinda Carlisle, Only A Dream

Last night  
The April breeze was whispering  
A hearts confession  
That could  
Mean so much  
Starts to touch my wild suspicion  
So close, not far away  
A bluer world another way

Chorus:  
Lavender, tangerine  
Hmm baby anything  
Life is not what it seems.  
Make a wish on a star  
Oh you'll go far  
Life is only a dream

I find a solitude  
In my imagination  
Past is past, bring it back  
Memories are made too fast  
I'm giving in no hesitation

So close to mystery  
I close my eyes so I can see

Repeat Chorus

And if you think there is an answer  
I tell you what I find  
A million miles behind the vista.

Repeat Chorus
