

# Belinda Carlisle, Shot In The Dark

It's a shot in the dark  
But baby I'd like the chance  
Fate ain't working  
So I'm taking it into my hands  
No sad songs not tonight  
No slow songs not tonight  
It's a shot in the dark  
And a chance at real romance

Who'd ever believe  
I'd ever see the edge of your tan  
But here in the moonlight  
Looks like summer is past  
You can take me, I'm yours tonight  
Make me yours tonight  
It's a shot in the dark  
And a chance at real romance

Real romance with you, I'd like to see  
Romance with you I'd like to feel  
Romance with you I'd like to be  
The one who does to you what it is you do to me

Shot in the dark and baby I'd like the chance  
Fate ain't working so I'm taking it into my hands  
Your eyes shine tonight like the first time I saw you dance  
I'm gonna get to know you any way that I can  
I ain't waiting not tonight  
No waiting...  
Shot in the dark and a chance at real romance
