

Bell Book and Candle, So right

Call me lover
watch me, I got something for you
call me lover
more of you never knew
call me lover
listen what I've got to say to you
call me lover
hear now and be all mine
try to be easy to let yourself go
don't turn away from my smile
I'll treat you right, so right, I give you everything you like
I'll treat you right, so right, I give you everything you like
I'll treat you right, so right, bring you joy and morninglight
I'll treat you right, so right, I give you everything you like
call me lover
turn around and see what you get
call me lover
find out what's on my mind
call me lover
say the words I won't forget
call me lover
don't be so shy cause
I'm feelin' easy, I let myself go
and if you can see me smile
I'll treat ...
call me lover
now you found out what it's about
call me lover
another step further
call me lover - oho
call me lover - oho
we're feelin' easy, we let ourselves go
and you've been caught by my smile
